

- Meets AWWA C708
- Any orientation
- Removable Register for flush/test Plug
- Compact Design
- Various Body Sizes
- Pulse Output

The VersaMag is a compact multijet type water meter that is flexible to many applications. It has the ability to be installed in any orientation while adhering to AWWA C708 accuracy standards. Along with the VersaMag's compact design, the removable register allows for pressure test and flushing without damage to the register elements. With its ability for the toughest of applications the VersaMag also comes in four body sizes utilizing the same register. With all of these features the VersaMag is the complete meter for any submetering application.

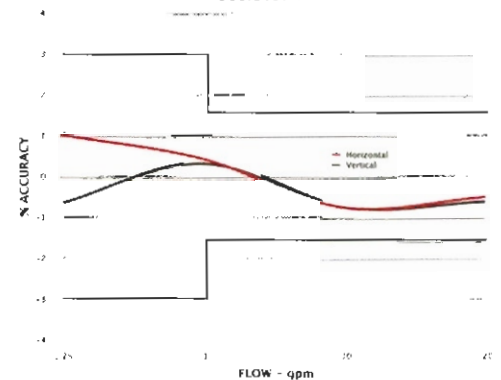

Technical Characteristics

| | |
|-----------------------------------|----------|
| Max Flow Rate | 20 gpm |
| Normal Flow Range(+/- 1.5%) | 1-20 gpm |
| Nom Flow Rate | 15 gpm |
| Min Flow Rate(+/- 3%) | 1/4 gpm |
| Max Work Pressure | 150 psi |
| Max Work Temp | 120°F |
| Nom Pipe Size | 3/4" |
| Pulse Value | 1/10 gal |
